YAM T series

Our Tender series inflatables have a slated floor, which makes the boats even smaller to fold-away. The tenders are designed to remain stiff and strong when inflated and in use.

YAM S series

All YAM Sport models use a stable V-hull configuration, providing not only great rigidity and superb directional control at speed, but also precise handling at slow speed. Tough, scratch-resistant rigid floors are a standard fitting.

YAM AIR series

At the heart of every Air model you'll find our unique and very clever inflatable floor and keel. A complex web of cross-stitching in the air chamber prevents distortion and keeps the surface rigid.
