TEMPEST 800 OPEN.

NEW MODEL 2025.

CAPELLI

NEW LAYOUT.

STANDARD LAYOUT.

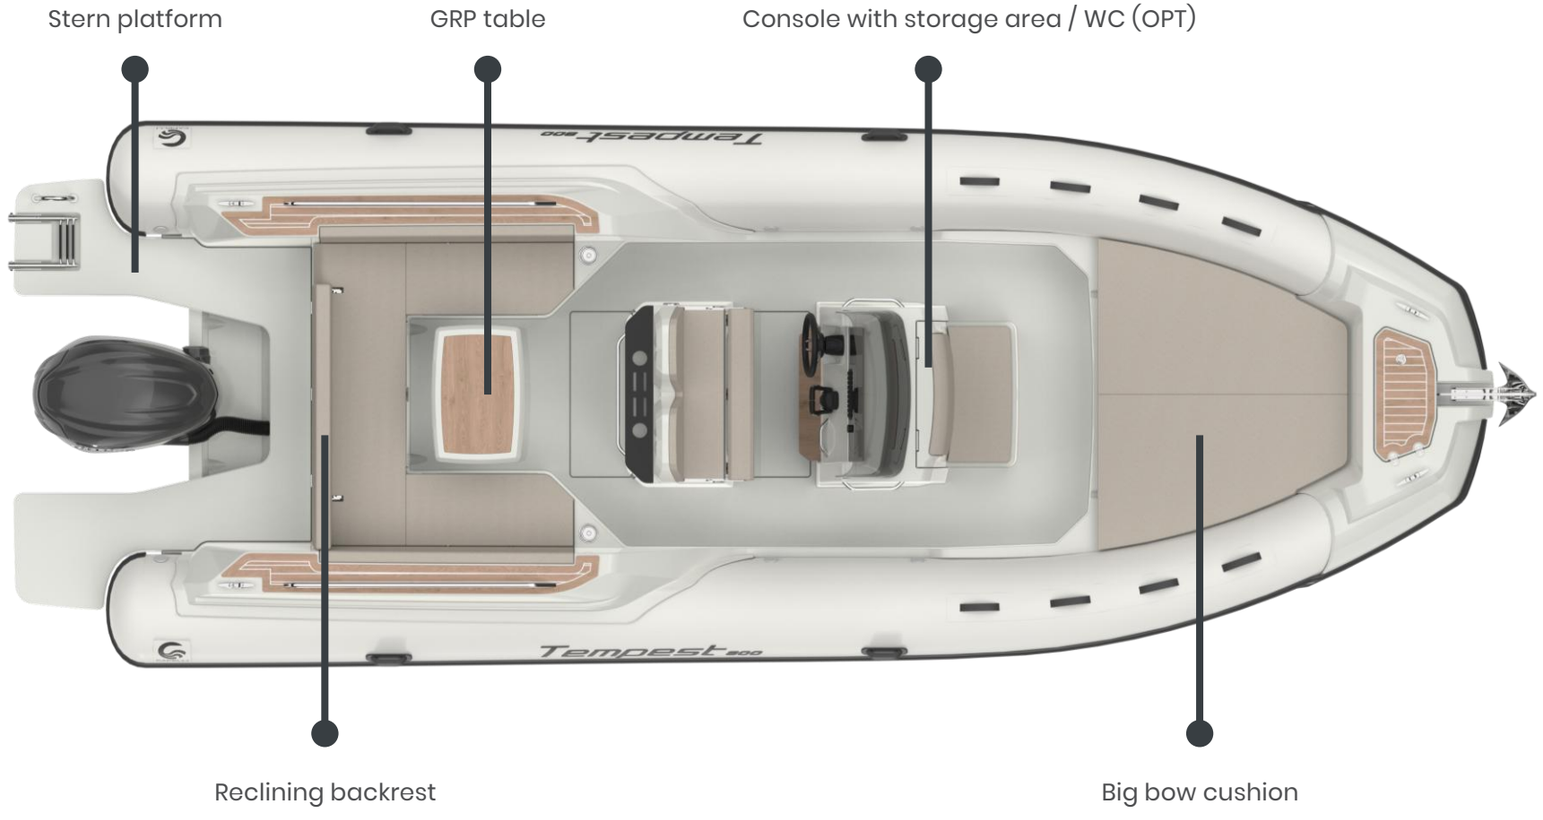

A versatile and comfortable boat that combines functionality, comfort, and style in an innovative, multifunctional design.

A spacious and appealing environment, carefully studied to ensure maximum usability and practicality on board

The deck layout features the classic generously sized C-shaped sofa. The redesigned stern platform hosts large-sized platforms.

The helm station features a prominent steering console, customizable with onboard instruments and a large instrument panel designed for a plotter installation up to 12".

The spacious bow sunbathing area hides a large storage compartment underneath.

NEW LAYOUT.

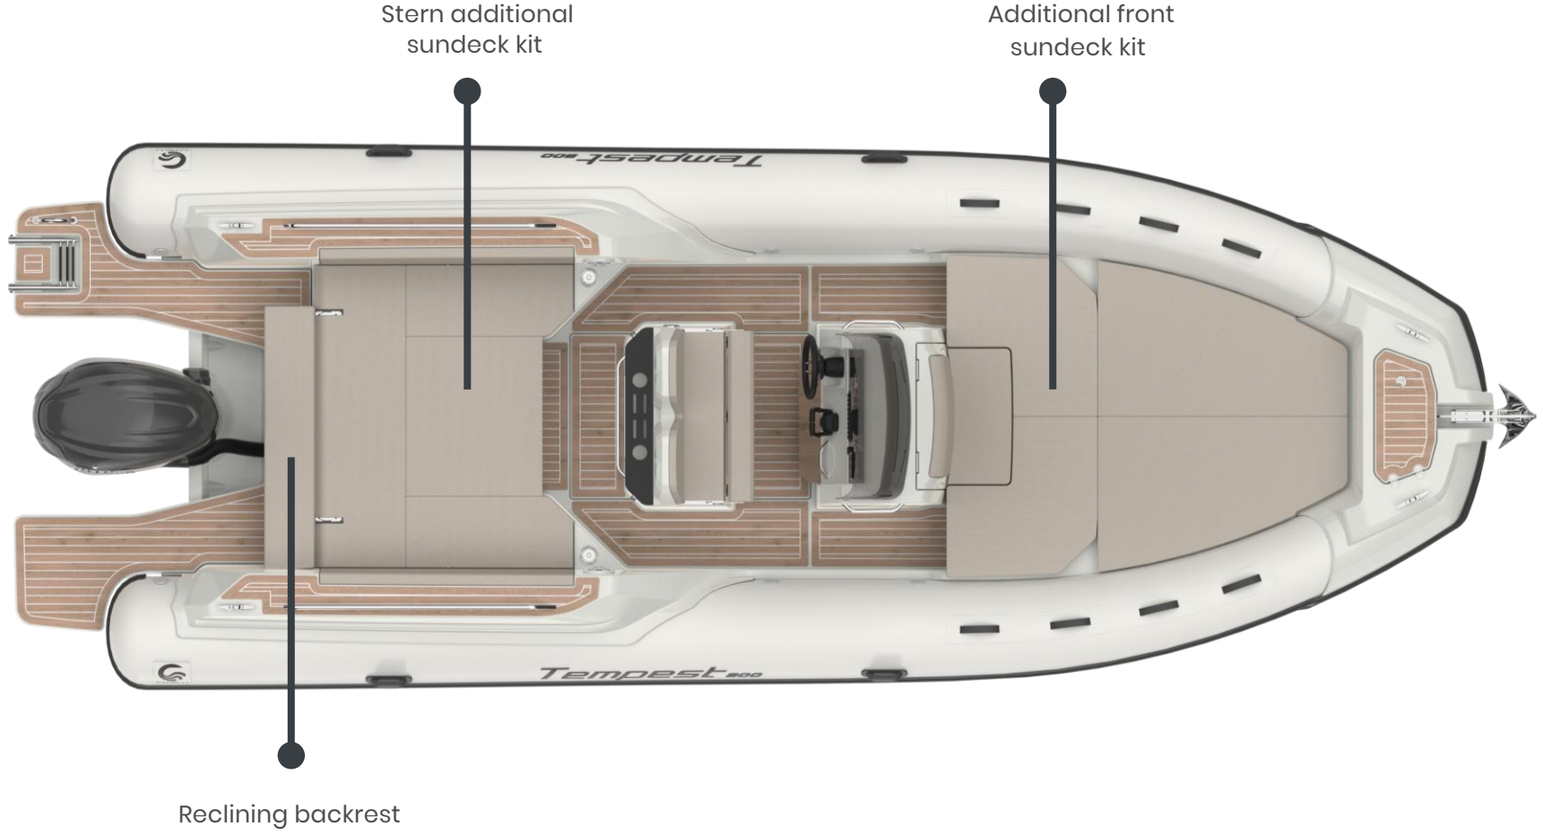

ADDITIONAL LAYOUT.

Tempest 800 OPEN stands out for its versatility: thanks to a series of modular options, the boat can be customized according to the owner's needs.

An optional folding table with hydraulic/ manual operation can expand the sunbathing area. At the stern, the reclining backrest provides additional space for this area.

The console can be equipped with a practical and spacious T-Top (optional), which also integrates mounting points for the carbon fiber poles of the aft canopy (optional). As an alternative, an aft canopy with 4 carbon fiber poles is also available.

Sleek, flowing lines and a functional, stylish deck layout are complemented by a blend of light colours, in shades of ivory and beige: pure Mediterranean style.

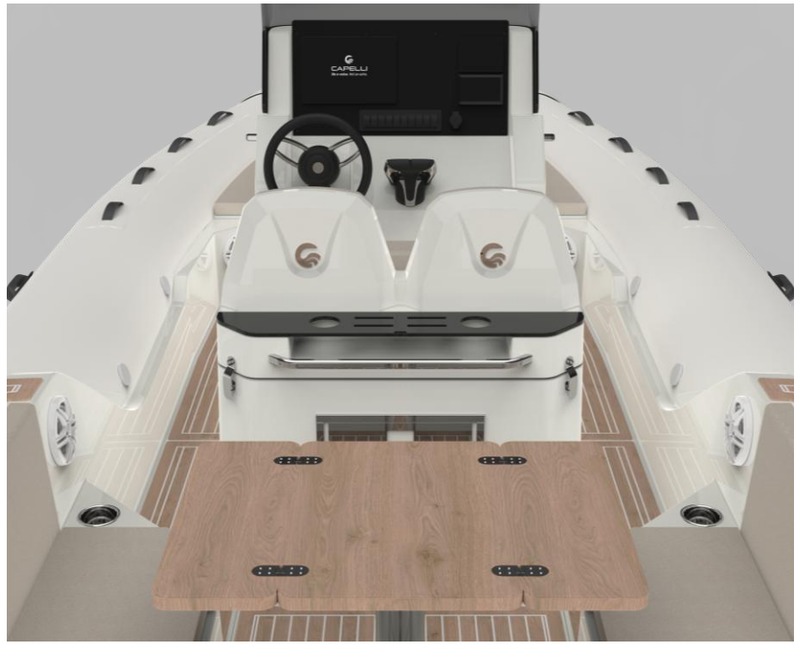

STEERING BENCH.

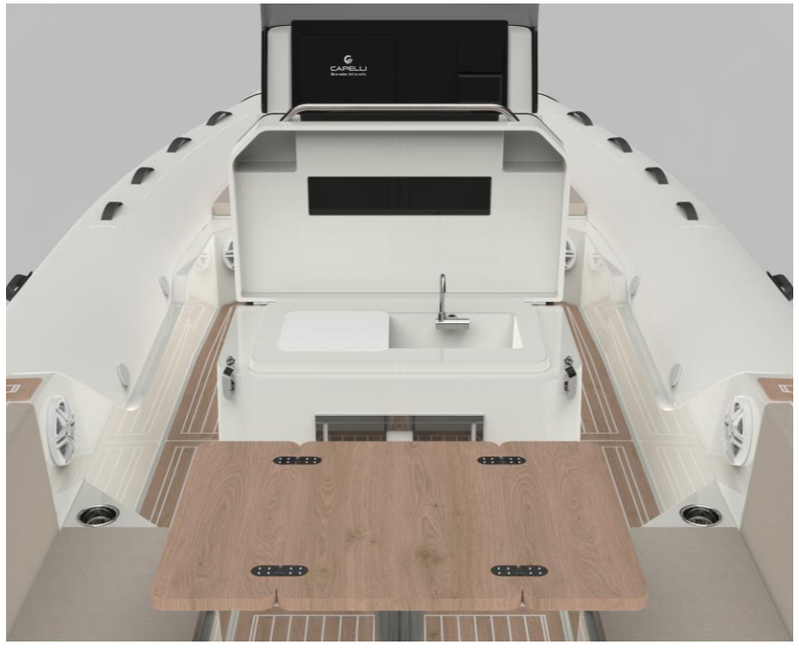

WITH INTEGRATED SINK.

The helm bench., characterized by a wide seat with dual backrests and a tilting function, it ensures a comfortable driving position for both the pilot and co-pilot.

Below the hatch, which opens towards the bow, there is a large sink with an integrated cutting board, offering ample workspace. The hatch includes a convenient handle and a flat surface designed for placing glasses and phones.

Optionally, integrated into the helm bench, a 50-liter drawer refrigerator can be added.

CONSOLE.

WITH MARINE TOILET.

In the front part of the console, there's a practical door with a seat and backrest that provides access to the area underneath the console.

This area can be used for storage, thanks to its convenient access and generous dimensions. Alternatively (optional), it can be fitted with a marine toilet, transforming it into an optimal bathroom area for long days at sea.
